Mission

Founded on the philosophy of providing; Quality, innovative and Efficient services. Our Mission is to be a renowned organization that will continually build and uphold a good reputation for technical excellence, quality personnel, comprehensive project management and deliver cost effective services that will meet client's needs and requirement. Our success over the years has been based on a keen commitment to this philosophy.

Vision

We aim to be the most competitive and most productive service organization in the world that would meet and exceed customer's expectation. Our core competence in Oil and gas drilling consultancy, Environmental Engineering and manufacturing are being continuously improved to be the best in class.

Core Value

We seek to be characterized by our passion, integrity, entrepreneurship and our innovative spirit, as we continually strive to fulfill our vision. These values guide us in all we do and are the bedrock upon which our organization is built.

About Us

Axxon Energy is an Indigenous Oilfield Service Company incorporated under the laws of the Federal Republic of Nigeria in November 1990. For years now giant strides have been taken and new frontiers broken by Axxon in the Oilfield Equipment Rental and Services to the major players in the upstream sector of the Nigerian Oil and Gas industry. As one of the foremost indigenous service providers in the petroleum industry, Axxon has redefined standards of Well Engineering Services through her stock of technically sophisticated equipment and pool of very experienced and professionally sound personnel.

Axxon Energy Limited is a limited liability company with own corporate headquarters at Plot 2 Axxon Close off Chevron Clinic Road, Edjeba Warri, Delta State. With technical support from our partners: Petro-King Intl (China), Ms Tubular Products Inc. (United Kingdom), Westco International (USA), International Completions-USA and Jiangsu Rushi Inc (China), the company has since commenced operation, and we are committed to providing clients with highest quality, cost effective and innovative services.

Axxon Energy Limited was founded on the philosophy of providing her clients with high quality and cost effective services in her areas of specialization and our success over the years has been due to a keen commitment to this philosophy.

Statement of Corporate responsibility in conducting business, we at Axxon Energy Limited recognize our responsibility to deliver quality services to our customers, recruit and reward our people on merit alone and minimize health and safety risks, honour agreements, and thereby deliver a satisfactory service return to our clients.

At Axxon Energy, our fundamental responsibility is discovering, developing and delivering innovative technology in the oil and gas industry that can make a substantial difference in the lives of the people, the community and the environment thereby creating a brighter future. We believe that fulfilling this responsibility in a sustainable manner entails high ethical standards and a culture that values honesty, integrity and transparency in all that we do.
